

Goldshield 24 - Innovative Approach to Hand Sanitizer

A unique alcohol-free hand rinse foam. This product combines a proven and effective antiseptic agent, benzalkonium chloride, with the unique characteristics of the Goldshield technology to provide excellent killing action on bacteria, fungi and viruses, while offering a long-term residual protection up to 24 hours of antimicrobial action. Additionally it moisturizes and will not deplete the natural oils in skin as alcohol does. It functions by attaching to the carbohydrates of skin that are polyhydroxylated.

Goldshield 24 is very economical to use because protection from a single application lasts for hours, significantly longer than alcohol which loses all effectiveness seconds after drying. Goldshield has been formulated to protect between hand washings by safely remaining on the skin's surface like an invisible glove, providing continuous antiseptic and antimicrobial protection for hours.

Goldshield® 24 Antiseptic Hand Sanitizer

Water-based, alcohol-free, gentle “foam” Hand/Body Sanitizer. One pump protects up to 24hrs against 99.99% of germs and common bacteria. Personal size (1.72 oz.) contains approx. 180 dispenses, gallon refills and commercial sizes also available. Pleasant, mild grape fragrance. The next generation hand sanitizer.

Goldshield® 75 Surface Antimicrobial Agent

Water-based, ready-to-use, liquid spray, antimicrobial agent effective against microbes on virtually any surface and most textiles. One easy application delivers on-going protection for up to 90 days. Alcohol-free. Stronger version available (GS5 concentrate) 2 spray heads included in 4 bottle case. Commercial sizes available.

Goldshield® 5 Surface Antimicrobial Concentrate

GS5 is a “concentrate.” Mix 1 gallon in 5 gallons of water to produce 6 gallons of ready-to-use product. Use on any surface for bacterial inhibition up to 90 days. This formula is for use in laundry applications. Commercial sizes available.

Goldshield® 85 Surface Cleaner

One application removes dirt, grime and kitchen spills, eliminates odors of all kinds, freshens the air and its unique persistent cleaning feature keeps surfaces, carpets, fabrics, etc. smelling fresh and clean for long periods of time.
